Triple output and 65W power - a power adapter for powering multiple devices Maxlife MXTC-09-65ACC is a multi-port power adapter with a power of 65 W. Designed using modern GaN technology. Two USB-C ports and one USB-A port enable simultaneous charging of smartphones, tablets, headphones, and laptops without losing efficiency and power stability. GaN technology. More power in a compact design The use of gallium nitride (GaN) has increased energy efficiency while reducing the size and heating of the device. As a result, the charger provides performance characteristic of larger models while remaining a mobile and convenient solution for daily use. Fast charging PD and QC. Time-saving in every situation The device supports the most popular fast charging standards, including Power Delivery and Quick Charge. It enables dynamic energy replenishment in compatible devices. It performs well both in the office and on business trips. Intelligent energy management system. Safety and optimization The built-in intelligent charging circuit analyzes the parameters of connected devices and selects the optimal voltage and current. Protection against overvoltage, overheating, and overload ensures long-lasting and safe operation.

Specification

Packages type:	Box with positioning blister
Quick charge:	yes
Brand:	Maxlife
Colour:	white
Connector:	USB-A (female) USB-C (female)
Maximum power [W]:	65 W
Fast charging standard:	PD + QC (Power Delivery oraz QuickCharge)
Cable in set:	no
Warranty:	12 mc
