FLF-03 EMERGENCY is a high-quality car flashlight with additional functions of a hammer, belt cutter and magnet. The compact size of the flashlight is ideal for placing it close to you while driving. This multi-functional flashlight will be very helpful in emergency situations. Included wrist strap allows you to hang the flashlight on your wrist, so you can use your hands freely and avoid dropping the flashlight. The device's four functions ensure usability in many situations: - Flashlight is useful when you need to illuminate the interior of the car or when diagnosing a fault on the road. - Hammer allows you to break the glass and make it easier to get out of the vehicle in an emergency. - Seat belt cutter allows you to cut the seat belts in case of their failure. - Magnet is great for attaching the flashlight to metal when you need light and two free hands to work on the vehicle.
