RVC201

The new RVC201 robot vacuum cleaner is perfect for smooth wooden, laminate and ceramic floors, as well as for carpets and short-haired carpets. It is equipped with 3 modes of operation - random, spiral and along the walls, changing regularly at preset intervals. It also uses two side sweeping brushes and an efficient 10W suction motor. With these features, you can be sure that the room will be vacuumed well. This is also supported by the compact size of the hoover and its low profile of only 7.5 cm, which makes the robot fit even under low beds or sofas. The hoover can run continuously for about 55 minutes, after which the red control LED on the on/off button will indicate that the battery has been discharged. It should then be plugged in to land for approximately 4-5 hours. The unit will continue to operate until the battery is discharged or the user turns it off. Robot vacuum cleaner RVC201 is a great time-saver and an irreplaceable help in everyday cleaning.

Spezifikation

Marke: Blaupunkt
Farbe: Weiß
Lautstärke (dB): 55 dB
Rodzaj produktu: Staubsauger
Batteriekapazität: 400 Ah
Ladezeit: 5 Std
Arbeitszeit auf der Batterie: 55 min.
Leistung: 10 W
Eingangsspannung: 110-240 V~ 50-60 Hz
Höhe: 7,50 cm
Bruttogewicht (mit Verpackung): 2,80 kg
Garantie: 24 mc
