BO-ZP14

The holder has the ability to extend and fold, featuring a 100-centimeter extension and can be shortened to just 19.8 cm, making it easy to store in bags. Weighing only 157 grams, it is very compact and can be carried everywhere without feeling heavy. The phone holder is rotatable 360 degrees, allowing you to adjust it to your favorite shooting angle, making it ideal for taking selfies, video calls, vlogging, travel photos, social life, and more. BT5.2 technology provides fast and stable connections with low energy consumption within a range of 10 meters. The removable button controller allows for remote control of the phone, making it more convenient to use. It is compatible with both iOS and Android systems. The adjustable phone holder makes it easier to hold the device and fits various phones of different sizes. High-quality materials ensure stable support. With a stable mount on the tripod, it will not easily shake, even when extended to its maximum height.
