Forever car holder for windshield ACH-100 automatic with wireless charging black 10W

GSM041953 5900495740267

Using a phone in a car has never been so easy and safe! Choose a convenient mounting location: glass or ventilation grille. Mount Forever Car. Bring the phone closer, the handle will silently cover the smartphone and keep it up all the way. At the touch of the handgrip, the phone will quickly come back to you. The position of the device can be precisely adjusted thanks to the telescopic arm of the handle. These are not all the advantages! Your smartphone will fill the battery very quickly thanks to the 10-watt inductive charging. Find out how pleasant it is to travel by car.
