

Blaupunkt Profesional System Audio PA25

AKGGLBLAAUDIO001
5901750501890

The PA25 professional audio system by Blaupunkt is a product created to meet the expectations of users who appreciate excellent sound quality in all conditions. It was designed and manufactured to resemble professional sound systems. Robust housing, a very powerful amplifier and high quality components, including two speakers with a diameter of 38 cm! These are just a few features of this product, which will make it ideal for your company, gym, SPA or fitness centre, as well as add splendour to a party at home or in the garden. **UNMATCHED POWER** The PA25 system's total musical power is 1900 watts. This uncompromising figure, combined with the right configuration, guarantees an unparalleled acoustic experience and will ensure adequate sound reinforcement even in very large rooms or outdoors. The Bluetooth module allows music to be played wirelessly from most mobile devices such as smartphones and tablets. The back of the casing is equipped with a control panel and a set of connectors - AUX input and output, USB port and SD card reader with a maximum capacity of 32 GB. So you can listen to music from all kinds of memory sticks and mobile devices connected via cable. In addition to the standard RCA line in, the PA25 also features a professional XLR connector. Speaker output can only be provided via an XLR connector. The device plays all files recorded in MP3/WMA format. With an equalizer offering normal, rock, pop, classic, jazz and news modes, you can adjust the sounds to your liking. In addition to the pre-programmed equalizer settings, you have independent bass and treble controls for even more precise sound tuning. **BUILT-IN FM TUNER** If you don't have a portable device with music files or a Bluetooth module, you can still listen to your music thanks to the built-in FM tuner with up to 99 presets. This large number of programmable channels means you don't have to search for your favourite radio station every time.
