GRS701

The GRS701 is a high quality electric table-top grill that will allow you to prepare your favourite roasted dishes all year round, regardless of the weather outside. It will be an excellent choice for those who appreciate the taste of grilled food, who can easily roast a variety of meats, sandwiches or snacks perfect for any meeting or party. The 23 x 34 cm corrugated hotplate is covered with a specially designed layer of non-stick material, which does not contain harmful PFOA (perfluorooctanoic acid). Uniform toasting of food is ensured by the system of movable hinges in the lid, thanks to which you can adjust it to the size of even large and irregular products. The lid of the grill GRS701 can be extended to 180 degrees at any time, which increases its capabilities. You can bake more food in one go by using the GRS701 as an open grill. The hinge mechanism has a locking function. This is especially convenient when you close the grill and want to put it away. The lock will prevent the grill from opening.

## Specification

- Type of product: electric grills
- Additional informations: Temperature control
- Colour: silver
- Brand: Blaupunkt
- Warranty: 24 month
