Dare yourself and start the adventure with Forever AS-100! It is a modern, intelligent analytical balance. It measures the content of adipose tissue and assesses many other important body parameters. All data is analyzed in a dedicated application. Thanks to this Forever AS-100 is a daily assistant for a well-balanced life. The balance has a precision strain gauge that can withstand loads up to 180 kg. Forever AS-100 can calculate the BMI, or body mass index, helping to assess whether the body's weight is normal, too low, and maybe we are overweight. In addition, it calculates BFR (body fat percentage) and BMR (metabolic rate).The parameters of your body are constantly updated and analyzed in a dedicated application. Thanks to this, you can immediately react to any balance of your body. The application stores data up to 8 users. Thanks to this, you also take care of the balance of your loved ones. Forever AS-100 in addition to measuring the basic parameter, which is the weight, analyzes muscle mass, adipose tissue, hydration level, bone mass, etc. In total, it is up to 17 parameters, the analysis of which is needed to maintain the balance of your body. The right design of the device is the basis. Forever A-100 also takes care of your safety when using the scale. Rounded sides protect against accidental breakage of the body and the weight set, for example, in the bathroom. Tempered glass weighs up to 180 kg, is resistant to breakage and will serve for many years.
