

Anti Shock 1,5 mm case for Samsung Galaxy Xcover 7 Pro transparent

GSM193787
5907504534534

The Anti Shock cover is an aesthetically pleasing high-quality product. The Anti Shock series stands out with reinforced corners and an increased thickness of up to 1.5 mm. The TPU material used and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. An additional rough inner layer prevents moisture from accumulating and the cover from sticking to the smartphone case. The Anti Shock series has cutouts for all ports and embossed spots for buttons. - The cover minimally increases the size of the smartphone. - It can be successfully used in car mounts. - It does not limit the operation of wireless chargers and magnetic stickers. We remind you that a natural property of TPU (thermoplastic polyurethane) material is the yellowing process. This occurs after prolonged use or contact with dyes. High exposure to sunlight also causes discoloration.

Specification
