Anti Shock 1,5 mm case for Samsung Galaxy S26 Plus transparent

GSM196914
5907674500438

The Anti Shock cover is an aesthetically pleasing high-quality product. The Anti Shock series is distinguished by reinforced corners and an increased thickness of 1.5 mm. The TPU material used and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. An additional rough inner layer prevents moisture accumulation and the cover sticking to the smartphone casing. The Anti Shock series has cutouts for all ports and embossed areas for buttons.- The cover minimally increases the size of the smartphone.- It can successfully be used in car mounts. - It does not limit the functionality of wireless chargers and magnetic stickers. We remind you that a natural property of TPU (thermoplastic polyurethane) is the darkening process. This occurs after extended use or contact with dyes. Prolonged exposure to sunlight also causes discoloration.

Specification

Brand: TFO
Thickness: 1,50 mm
Compatible with MagSafe: no
