The Smart Velvet case for smartphones combines elegance and functionality in one. This classic wallet-style cover will provide durable and aesthetic protection for many smartphone models. What sets our product apart are the tasteful colors and pleasant-to-touch eco-leather with a matte finish. A unique advantage of the product is the ability to position the phone horizontally thanks to the built-in stand. On the inside of the case closure, there are two pockets that can fit payment cards, documents, or tickets. Additionally, a larger vertical pocket is placed on the back closure of the case, suitable for storing larger documents or banknotes. With our case, you can forget about a traditional wallet. Other benefits of this product include perforation at the speaker height, which ensures comfortable conversation without the need to open the case. The solid inner structure, with openings for all ports and side buttons, along with the case closure featuring a built-in magnet, will take care of your smartphone's safety.
