

Anti Shock 1,5 mm Mag case for iPhone 17 Pro 6,3" / iPhone 18 Pro 6,3" transparent big hole

GSM278232
5908067014686

The Anti Shock MagSafe case is an aesthetically pleasing high-quality product. The entire Anti Shock series features reinforced corners and an increased thickness of up to 1.5 mm. The TPU material used and the thickness of the case ensure greater protection for the phone against shocks and scratches. The case is fully transparent. An additional textured inner layer prevents moisture accumulation and the case sticking to the smartphone's body. Anti Shock products have cutouts for all ports and embossed areas for buttons. - The case minimally increases the size of the smartphone. - It can successfully be used in car mounts. - It allows for wireless charging of the phone with a MagSafe charger. We would like to remind you that a natural property of TPU material (thermoplastic polyurethane) is the darkening process. This occurs after prolonged use or contact with dyes. Significant exposure to sunlight also causes discoloration.

Specification

Brand: TFO
