

Forever Bluetooth microphone with speaker BMS-500 pink outlet

GSM114942_OUTL
5900495051868

The BMS-500 microphone with a built-in loudspeaker allows you to sing and play music at the same time! Such a device with the function of Voice Modulation and Echo will get any party going. The black foam microphone cover will allow you to get a cleaner sound, and the matte housing looks perfect with LED backlight! The AUX output connector will allow you to connect the microphone to the loudspeaker with any power. You can play music via Bluetooth connection or memory card slot. The vocal reduction function will allow you to empathize with the role of a singer even better. The microphone has buttons that allow you to: - changing the voice modulation mode - vocal mute function - microphone / built-in loudspeaker volume control - switching between tracks - control of the reverb function - pause / start - the pairing function - on / off - TF card slot, USB C connector, AUX out.
