The Maxlife wireless microphone with Bluetooth speaker MXBM-600 is the perfect solution for music and singing enthusiasts. With Bluetooth technology, it offers complete freedom without the need for cables or sockets. It can be used anywhere, making it exceptionally portable and convenient. The MXBM-600 microphone is compatible with most Bluetooth-enabled devices, such as smartphones, tablets, TVs, and computers. The microphone and built-in speaker can operate simultaneously, eliminating the need for additional equipment. Equipped with buttons for switching tracks and adjusting volume, it allows for easy sound customization to suit personal preferences. The built-in echo effect adds interesting sound effects that can be adjusted. The microphone also allows pairing with a second MXBM-600 microphone, enabling singing together with friends or family. The durable casing and easily accessible ports make it not only functional but also robust. - Microphone and speaker in one - Control buttons - Easy access to ports - Durable casing
