Handy Portable Photo and Note Printing DeviceThe handy portable printer, perfect for creative kids, allows for instant printing of black-and-white photos, drawings, notes, labels, cheat sheets, and stickers. With it, special moments can be quickly captured and shared directly from a smartphone. **Intuitive iPrint App** The printer works with phones through the free iPrint app, available on the App Store and Google Play. The app offers:- Drawing creator, - Text, label, and banner editor, - A ready-made database of icons and drawings, - Text scanning function from photos with editing capabilities. With these features, children have unlimited creative possibilities! **Reliable Thermal Printing Technology**The printer uses thermal printing technology, eliminating the need for ink – just replace the thermal paper. This makes the device cost-effective to operate and easy to use. It supports thermal rolls with a width of 57 mm and a thickness of 30 mm. The set includes as many as 5 rolls of thermal paper, ensuring long-lasting use. **Mobile and Lightweight Design** The lightweight and portable design of the printer makes it easy to take anywhere, making it an ideal solution for school, home fun, or as a gift. The printer can also function as a text reader from photos, allowing for further editing and customization to meet individual needs.
