Forever Light G4 12V LED bulbs are compact and efficient light sources that work great for decorative and auxiliary lighting. The 3.5W model generates a luminous flux of 370 lm, providing bright and even light with low energy consumption. Due to its small size, it easily fits into small fixtures and designer lamps. The offer includes three color temperature variants: 3000K, 4000K, and 6000K. The warm color (3000K) creates a pleasant, relaxing atmosphere, neutral (4000K) is versatile and practical for everyday use, while the cool (6000K) guarantees clear and intense light conducive to concentration. As a result, Forever Light G4 bulbs are suitable for various types of interiors - from homes to commercial spaces.The G4 base combined with a 12V power supply allows for easy installation in popular table lamps, decorative lighting, or furniture lighting. Energy class F means higher consumption than E-class models, but LED technology still allows for significant cost reduction compared to traditional halogens. An additional advantage is the long lifespan and stable operation. Forever Light G4 3.5W bulbs are the perfect solution for customers looking for small, energy-efficient, and aesthetically pleasing light sources. They beautifully highlight the details of the interior, giving it a unique character. This is a choice that combines functionality, durability, and elegance in a compact form.
