5902983615965

myPhone Halo A has a 1.77 "color screen with a large and legible font that does not tire your eyesight. At the same time, it is handy and weighs only 73 g, as a result its operation is easy and convenient for everyone. The cell phone has large, illuminated keys, as well as an SOS functional button that allows you to establish a connection / send an SMS to a pre-programmed number with one click. As a result, the user is safer in the event of unexpected situations. The phone ensures stability and certainty of contact with loved ones. The Halo A model offers up to 120 hours of standby time or up to 4.5 hours of continuous talk time - all thanks to a large capacity 800 mAh battery.
