Buy now

myPhone FLIP LTE is a practical flip phone that enables clear calls thanks to VoLTE technology. It features a convenient 2.8" display, an SOS button, Dual SIM functionality, and a 1000 mAh battery with USB-C charging. The FLIP LTE model provides up to 6 days of operation on a single charge. A 1000 mAh battery will allow constant contact with loved ones. A large and bright display makes it easy to read messages and quickly find all the necessary information and features.
