The HAMMER Construction 2 5G is a piece of equipment for those who refuse to compromise. With features that will work in both the wilderness and the urban jungle, this phone will become your faithful companion on every adventure. With a state-of-the-art processor and reliable connectivity modules, you don't have to choose between durability and everyday functionality. Falls, spills, dust or extreme weather conditions? The HAMMER Construction 2 5G is built to withstand the greatest stresses. It works reliably in extreme temperatures from -20°C to 55°C and meets military MIL-STD-810H standards and is IP69 certified, meaning you can use it in any situation. With a 6500 mAh battery, you are assured that your phone will last for a long time, and the 33W fast charging will get you back in the game in no time. The powerbank function is an added advantage when you need to charge other devices on an expedition. 5G, VoLTE and even eSIM technology - this phone not only connects you to the web, but also allows you complete freedom wherever you are. Reliable connectivity and fast data transfer ensure that nothing can stop your adventure - not the wilderness or urban exploration. A triple set of cameras (50 Mpx, 8 Mpx and 2 Mpx) will allow you to capture every moment, regardless of the lighting conditions. Additional features such as Night Vision ensure that you won't miss a thing, even at night. With the 50 Mpx main lens and Night Vision, you are sure to capture the best shots - even in dark corners during explorations or night-time survival trips. The 8 Mpx camera on the front of the phone provides clear video conferencing and selfies, so you'll always be in touch with your team. With a MediaTek 6300 processor, 6GB of RAM and the ability to expand by a further 8GB, this phone is fast and reliable. It's backed by Android 14, which provides the latest features, optimisation and smooth operation, even with many tasks. You won't be short of space for your most important files, either. The 256 GB internal memory will hold all your videos, photos and maps. This can be expanded to 1TB using an SD card. With the HAMMER Toolbox app, your smartphone turns into a real survival essential. Here you have a spirit level, a sound meter and a laser rangefinder with a 50 m range - everything you need to accurately measure, assess and operate in the field. Ideal for exploring abandoned places and outdoor adventures. A display ready for any task The 6.58-inch FHD+ (1080x2408) screen with 120 Hz refresh rate is a real secret weapon in your arsenal. A smooth, clear image is not just a matter of comfort - it's a tactical advantage. Whether you're analysing maps in the field or relaxing after an operation, this screen delivers clarity and responsiveness you can count on in any situation. Ready for any mission, whatever the conditions! The HAMMER Construction 2 5G is a piece of hardware that is ready for anything - from everyday challenges to extreme scenarios. The Dual SIM (SIM+eSIM) function allows you to use two numbers on one device, putting you in full control of your connectivity, regardless of the mission. Plus, the programmable HAMMER Key provides instant access to key functions when every second counts. A limited edition collection for the challenge conscious! Rugged, reliable and ready for new realities. All in a unique design. Military Edition devices are designed for users who are aware of today's challenges and want to be ready for any situation.
