HAMMER Ranger is a new smartphone in the HAMMER family, designed for those who value an active lifestyle and reliability in all conditions. The smaller size of the device makes it fit perfectly in your hand and allows for comfortable one-handed operation. Green design accents emphasize its outdoor, forest character. The smartphone is equipped with a set of cameras: a main 50 MP lens, a wide-angle 8 MP, and a 16 MP front camera, enabling clear and detailed photos in any conditions. The durable 5000 mAh battery with replaceable option provides long-lasting performance, and the IP69 and MIL-STD-810H certifications ensure resistance to water, dust, and shocks. HAMMER Ranger offers the performance you need for everyday use and in the field. The MediaTek Helio G99 octa-core processor and 6 GB of RAM ensure smooth operation of Android 15. Available storage options of 128 GB and 256 GB allow you to store all necessary files, photos, and applications. Thanks to eSIM support, you can use your number without a physical card, increasing convenience and security. HAMMER Ranger is a combination of compact form, durability, and modern technologies – an ideal companion for work, travel, and adventure.
