Filament LED bulbs from Forever Light are a product with unique aesthetics. Their design includes large LED filaments similar to the appearance of classic light bulbs. The bulbs are distinguished by ultra-warm light similar to the effect of tungsten filaments. The technology used is a unique combination of many chips on a straight or curved surface covered with a phosphor. They are perfect bulbs for stylized interiors and decorative lamps. The product is available with a transparent or tinted glass bulb. Filament bulb can be used for everyday use. It has a low operating temperature. The product does not contain toxic compounds of lead and mercury, does not emit UV and IR radiation. The product is available in different options of power and color temperature indicated in the name and specification tab.
