Buy now

Modern high-capacity power bank with a clear display, a large number of ports, and support for various fast charging technologies. This power bank is perfect for everyday use due to its various interfaces, fast charging support, and compact size. It supports modern fast charging protocols: Quick Charge (QC 3.0 and QC 2.0), Power Delivery (PD 3.0 and PD 2.0), Hisilicon Fast Charging Protocol (Huawei FCP), Adaptive Fast Charging (AFC), and Apple 2.4 A. This allows charging most popular smartphone models within a few minutes. There is also support for low-current charging for gadgets such as smartwatches, fitness bands, and wireless headphones.
