This power bank is equipped with a digital display that continuously informs about the battery charge status, helping to avoid unexpected power shortages. The USB-A ports support QC3.0 technology, offering an output power of up to 22.5 W, while the USB-C port is compatible with bidirectional PD fast charging technology, providing a maximum output power of 20 W for quickly charging various USB-C devices, while also allowing the power bank itself to be charged via an 18 W USB-C input. It has a high-capacity 10000 mAh battery, yet it is slim and lightweight, making it easy to fit in a bag or pocket, allowing you to take it anywhere you need to meet various charging needs. Built with safety in mind, it offers overcharge and overheating protection features, ensuring the safety of your devices.

Specification

- Battery type:** Polymer
- Output voltage:** USB: 5V-3A, 9V-2A, 10V-2,25A, 12V-1,5A
USB-C: 5V-3A, 9V-2,22A, 12V-1,67A
- Quick charge:** yes
- Brand:** BWOO
- Colour:** white
- Accumulator capacity:** 10 000 mAh
- Warranty:** 12 month
