The GaN PD QC TC-06 wall charger provides simultaneous and efficient charging for two devices. With a power output of 65W and support for various fast charging protocols, such as Power Delivery and Quick Charge, it serves as an excellent support for modern mobile devices like smartphones and laptops that require quick power. It is equipped with two USB-C ports. The latest GaN (gallium nitride) technology used in this charger has allowed for the creation of a device with enhanced efficiency while maintaining compact size and low weight. This technological innovation has made it possible to completely move away from the traditionally used silicon in chargers. The charger is made from high-quality materials, features excellent safety protections, and has a durable construction. It is equipped with a smart parameter adjustment system for current based on the needs of connected devices. Regardless of the type of device, the system will automatically adjust the optimal current settings, ensuring fast and safe charging. The charger can power not only new phone models but also laptops that have fast charging capabilities.

Specification

Packages type: box
Input voltage: 100 - 240 V (50 - 60 Hz)
Brand: Forever
Colour: white
Output port type: USB-C
Maximum power [W]: 65 W
Maximal current: 3,25 A
Fast charging standard: PD (Power Delivery)
Warranty: 12 month
