Experience the latest in charging technology with our GaN fast charger and Power Delivery (PD) charge cable, designed for superior speed and efficiency. Compatible with both iPhone and Android devices, this charger ensures quick and safe charging for all your gadgets. Featuring a flame-retardant exterior shell and built-in safeguards, this charger protects against overheating, overloading, overcharging, and short-circuits, providing ultimate protection for you and your devices. Made with high-quality PVC flame-retardant materials, this charger is durable and long-lasting. Its design ensures no tangling, no knots, and no creases, making it a reliable choice for everyday use.
