BO-CC73

This wireless car charger supports a total maximum output power of 38W. With USB-A and USB-C ports, it can quickly charge and power two devices simultaneously. Supporting PD and QC fast charging protocols, it offers 20W power for rapid charging of all USB-C port devices via the USB-C port and allows for a maximum power of 18W for charging all electronic devices with a USB-A port via the USB-A port. Its intelligent chip enables smart power adjustment to an optimal level for safe and fast charging, effectively avoiding current overload, excessive power input, short circuits, and more. Supporting voltage from 12V to 24V, it is suitable for use in various types of vehicles, including trucks, cars, and others. It provides a stable connection to ensure reliable charging and can be securely placed in the car's cigarette lighter socket, preventing it from falling out even on uneven roads.

## Specification

- Packages type:** box
- Input voltage:** 24 V
- Brand:** BWOO
- Colour:** silver
- Connector:** USB-A (female)  
USB-C (female)
- Maximum power [W]:** 20 W
- Fast charging standard:** PD + QC (Power Delivery oraz QuickCharge)
- Warranty:** 12 month
