Forever Forevive 4 – an elegant smartwatch for active womenForevive 4 is a stylish and functional smartwatch that supports health, physical activity, and organization of daily tasks. With modern solutions, it allows you to take care of your fitness and enjoy comfortable usage. Health monitoring The smartwatch analyzes sleep, measures heart rate, blood oxygen level, blood pressure, and counts steps and calories burned. Thanks to the menstrual calendar, it assists in planning activities. Additionally, it offers breathing exercises that support relaxation and stress reduction. Sports modes and route tracking Forevive 4 has a wide range of training modes and enables route analysis via the app. It helps improve fitness and achieve better sports results. Bluetooth calls and smart features With a built-in microphone and speaker, you can receive and make calls without the need to take out your phone. The smartwatch supports notifications, music and camera control, and has a phone-finding function. Customization and convenience The package includes two straps – a silicone one and an elegant mesh bracelet. You can change the watch face to match your style. Modern design and water resistance Forevive 4 features a bezel-less 1.32-inch high-resolution screen that ensures readability and vibrant colors. With an IP67 water resistance rating, the smartwatch is resistant to splashes, rain, and dust. Long battery life and convenient charging The battery lasts from 3 to 7 days, and the inductive charging makes using the smartwatch even more convenient. Forevive 4 is the perfect combination of elegance and modern technology that will help take care of your health, activity, and daily organization.
