The Forever Look Me 2 smartwatch is the perfect alternative to a smartphone, providing a secure and controlled way for children to stay in touch with their parents. With a SIM card slot, it allows for voice and video calls, enabling parents to maintain constant communication with their child. The remote care feature lets parents activate the microphone or take a photo from the watch to ensure that the child is safe. The built-in SOS button allows for quick dialing of previously saved numbers in emergency situations. The watch is equipped with a precise GPS and Wi-Fi locator, which allows parents to check their child's current location, track their movement, and set safety zones with notifications when the child leaves designated areas. Operating the watch is intuitive thanks to the 1.44-inch touchscreen and simple menu in Polish. The smartwatch is compatible with both iOS and Android systems, as well as any mobile network. The IP67 waterproof rating provides protection against dust and water, allowing for brief submersion up to 1 meter for 30 minutes. The smartwatch is resistant to weather conditions, making it perfect for outdoor play. The Forever Look Me 2 offers safety, convenience, and modern technology all packed into a functional smartwatch for children.
