The Smart Velvet case for smartphones combines elegance and functionality in one. This classic wallet-style cover will provide durable and aesthetic protection for many smartphone models. What distinguishes our product are the tasteful colors and pleasant-to-touch eco-leather with a matte finish. A unique advantage of the product is the ability to position the phone horizontally thanks to the built-in stand. On the inner side of the case's closure, there are two pockets that can hold payment cards, documents, or tickets. Additionally, on the closure side of the back of the case, there is a larger vertical pocket suitable for storing larger documents or banknotes. With our case, you can forget about a classic wallet. Other advantages of this product include perforation at the speaker height, which ensures comfortable conversations without the need to open the cover. The smartphone's safety is ensured by a solid internal shell with openings for all ports and side buttons, as well as a case closure with a built-in magnet.
