The Smart Velvet case for smartphones combines elegance and functionality in one. This classic wallet-style cover provides durable and aesthetic protection for many smartphone models. What sets our product apart are the tasteful colors and pleasant-to-touch faux leather with a matte finish. A unique advantage of the product is the ability to position the phone horizontally thanks to the built-in stand. On the inner side of the case closure, there are two pockets that can hold payment cards, documents, or tickets. Additionally, on the closure side of the case's spine, there is a vertical, larger pocket suitable for storing larger documents or banknotes. With our case, you can forget about a traditional wallet. Other advantages of this product include a perforation at the speaker height for comfortable calls without the need to open the cover. The smartphone's safety is ensured by a solid internal shell with openings for all ports and side buttons, along with a case closure featuring a built-in magnet.
