The Anti Shock cover is an aesthetically pleasing high-quality product. The Anti Shock series is distinguished by reinforced corners and an increased thickness of up to 1.5 mm. The TPU material used and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. An additional rough inner layer prevents moisture accumulation and the cover sticking to the smartphone casing. The Anti Shock series features cutouts for all ports and embossed areas for buttons. - The cover minimally increases the size of the smartphone. - It can be successfully used in car mounts. - It does not restrict the functionality of wireless chargers and magnetic stickers. Please note that a natural property of TPU (thermoplastic polyurethane) is the darkening process. This occurs after prolonged use or contact with dyes. Significant exposure to sunlight also causes discoloration.
