

Anti Shock 1,5 mm case for Honor 400 Lite transparent

GSM192276
5906961999559

The Anti Shock cover is an aesthetic high-quality product. The Anti Shock series is characterized by reinforced corners and increased thickness of up to 1.5 mm. The applied TPU material and the thickness of the cover guarantee greater protection of the phone against shocks and scratches. The cover is fully transparent. The additional textured inner layer prevents moisture accumulation and the cover from sticking to the smartphone's casing. The Anti Shock series has cutouts for all ports and embossed areas for buttons. - The cover minimally increases the size of the smartphone. - It can be successfully used in car mounts. - It does not limit the functionality of wireless chargers and magnetic stickers. We remind you that a natural property of TPU (thermoplastic polyurethane) is the darkening process. This occurs after longer use or in contact with dyes. Prolonged exposure to sunlight also causes discoloration.

Specification
