Buy now

The Anti Shock cover is an aesthetic high-quality product. The Anti Shock series features reinforced corners and an increased thickness of up to 1.5 mm. The use of TPU material and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. An additional rough inner layer prevents moisture accumulation and sticking of the cover to the smartphone case. The Anti Shock series has cutouts for all ports and embossed areas for buttons. - The cover minimally increases the size of the smartphone. - It can be successfully used in car mounts. - It does not limit the operation of wireless chargers and magnetic stickers. We remind you that a natural property of TPU material (thermoplastic polyurethane) is the darkening process. This occurs after prolonged use or contact with dyes. High exposure to sunlight also causes discoloration.

Specification

Brand: TFO
