The Anti Shock cover is an aesthetic high-quality product. The Anti Shock series is distinguished by reinforced corners and an increased thickness of up to 1.5 mm. The TPU material used and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. An additional rough inner layer prevents moisture from accumulating and the cover from sticking to the smartphone casing. The Anti Shock series features cutouts for all ports and embossed areas for buttons. - The cover minimally increases the size of the smartphone. - It can successfully be used in car mounts. - It does not limit the operation of wireless chargers and magnetic stickers. We remind you that a natural property of TPU material (thermoplastic polyurethane) is the darkening process. This occurs after a longer period of use or in contact with dyes. High exposure to sunlight also causes discoloration.
