Silicon covers feature a matte finish that not only adds elegance but also provides a secure grip and reduces the risk of accidental slipping of the phone from your hands. They are designed with user comfort in mind, so their texture is pleasant to the touch, making the use of the phone even more enjoyable. The delicate microfiber lining offers additional protection against scratches and minimizes the risk of damage to the casing. Thanks to high-quality materials, Silicon covers are resistant to discoloration and damage, maintaining their attractive appearance for a long time. The covers have precisely cutouts for all ports and cameras, allowing free access to all phone functions without the need to remove the cover. They provide solid protection for the phone and its cameras, ensuring that the device is properly secured. Perfectly fitted to the chosen phone model with perfect coverage of every detail of the device. They do not restrict the operation of wireless chargers and are compatible with most car mounts, ensuring full functionality of the device even during travel. Available in several color variants with a matte finish.
