Buy now

Defender Slide is a reinforced phone case that provides good protection for the device. The product consists of several layers that stiffen and strengthen its construction. The case is made of PC, TPU, and has a built-in aluminum finger holder. The entire series features a movable camera shield that protects the lenses and ensures privacy. Additionally, the higher edges protect the screen from cracking or scratching. The cases have necessary cutouts for ports and embossing for buttons. The frame has openings that allow for attaching a strap or lanyard. The Defender Slide case is compatible with magnetic mounts.
