Classic transparent covers for smartphones are a universal and aesthetic form of protection. The Slim series consists of high-quality products made from TPU material. This is a type of flexible plastic that is resistant to abrasion. Slim 1 mm covers are just 1 mm thick. The lightweight and flexible product fits perfectly to the device. The covers do not increase the weight or size of smartphones. The embossed spaces for buttons and precise cutouts for ports make using the phone easier. It is not recommended to expose the covers to intense sunlight for extended periods. Exposing the product to UV radiation negatively affects its appearance. - The Slim 1 mm cover does not interfere with wireless charging; - The product is suitable for printing; - Protection of smartphones from damage; - Safe use with car mounts; - The interior is protected from sticking and moisture accumulation;
