

# Slim case 2 mm for Google Pixel 9a transparent

GSM189440  
5906961931375

Classic transparent smartphone cases provide universal and aesthetic protection, while the Slim series, made of flexible, abrasion-resistant TPU, offers high quality. The 2 mm thick cases are slightly reinforced, fit perfectly in hand, and look sturdy on the smartphone without adding weight or size. Precise cutouts for ports and embossed spaces for buttons ensure comfortable usage, and the interior is protected against sticking and moisture accumulation. The product is suitable for printing, allows safe use with car mounts, and offers enhanced protection against damage; however, prolonged exposure to sunlight may negatively affect its appearance.

## Specification
