Buy now

Classic transparent cases for smartphones are a universal and aesthetic type of protection. The Slim series consists of high-quality products made from TPU material. This is a type of flexible plastic that is abrasion-resistant. The Slim series includes, among others, cases with a thickness of 2 mm. The product fits perfectly in the hand and looks sturdy on the smartphone. The slightly reinforced case is perfectly matched to the device. The cases do not increase the weight or size of smartphones. The embossed spaces for buttons and precise cutouts for ports make using the phone easier.

Specification

Brand: TFO
