Classic transparent covers for smartphones are a universal and aesthetic type of protection. The Slim series consists of high-quality products made from TPU material. It is a type of flexible plastic resistant to abrasion. The Slim series includes covers with a thickness of 2 mm. The product fits perfectly in the hand and looks solid on the smartphone. The slightly reinforced cover is perfectly adapted to the device. The covers do not increase the weight or size of the smartphones. The embossed spaces for buttons and precise cutouts for ports facilitate using the phone.
