

Blaupunkt Radio FM PLL CRP16WH

RTVRABLA PRZE0031
5901750501258
CR16WH

The device features a very large and extremely visible 3" display and an original, modern design, making it perfect for any interior. The front panel of the clock radio resembles a tinted mirror, and the model also includes a circular frame that highlights the device's unique character. Due to the large size of the display digits, an appropriate brightness adjustment has been implemented to optimally match current lighting conditions and personal preferences. There is a "High" mode that works perfectly in well-lit rooms and a "Low" mode with smoothly adjustable levels, which is ideal for variable lighting conditions. When using the lowest setting, it improves user comfort during the night or in very dark rooms. The device also comes with a built-in FM tuner with digital PLL synthesis and the ability to program 10 favorite radio stations.
