EKP502

All of these requirements are met by the Blaupunkt EKP502, a kettle with a power of 2,200 W and a capacity of 1.7 l (min. 0.5 l), while at the same time being a device created for a large family. Thanks to its swivel base and the heater hidden in the flat bottom, this device is very convenient for everyday use. The user does not have to worry about forgetting to put water in the kettle for tea - the kettle will automatically switch off after the water boils.
