HSI801

The HSI801 allows you to work in two modes: dry and wet. Steam is transferred to the nozzles in the iron foot with a stream of up to 45 g/min. When the extra steam button is pressed, the iron generates a powerful burst of up to 140g of steam per minute. The ceramic soleplate ensures that the iron glides smoothly over the material, improving the ironing comfort. It is also highly scratch resistant and does not collect dirt.

Specification

- Type of product: irons
- Net weight: 1,50 kg
- Cable length: 3 m
- Brand: Blaupunkt
- Colour: blue
- Warranty: 24 month
