HF08

Introducing the compact HF08 humidifier with an impressive colorful flame light. Improve air quality and create a relaxing atmosphere with a device that ensures optimal humidity levels and subtle, decorative lighting. The humidifier is energy-efficient and convenient to use thanks to the 5V/1A micro input. The 260 ml tank allows for extended operation without the need for frequent water refills. Its compact size makes it perfect for a desk, bedside table, or even in a cup holder in the car. Available in four elegant colors – green, pink, gray, and blue – it easily fits into any interior. In addition to its humidifying function, the device offers a mesmerizing light effect that adds a warm accent to the space. The package includes a cartridge and a charging cable. Create a comfortable and relaxing environment with the compact HF08 humidifier featuring colorful flame light.
