HUS1027

The Huslog 1200 W crepe maker is a reliable device for lovers of homemade pancakes – both sweet and savory. With a powerful 1200 W, the device heats up quickly, and the non-stick surface ensures that pancakes can be easily flipped and do not stick to the plate. The large 29-centimeter heating surface allows you to prepare pancakes of impressive size with any amount of toppings. The device features a convenient knob for smooth temperature control, enabling precise adjustment of power to your culinary preferences. The specially designed high edge prevents batter from spilling, keeping your kitchen tidy while frying. Included in the set is a practical spatula and roller, which allow for even spreading of the batter and easy flipping of the pancakes. It's the perfect choice for any kitchen – easy to use, functional, and ready for culinary experiments.
