HUS1025

The TO GO 180 W wireless blender is an indispensable companion for everyday life on the go – perfect for active people who care about a healthy diet and convenience. Thanks to the durable Li-ion battery, you can charge it using a laptop, power bank, or in your car and take it everywhere with you: to work, the gym, school, or on a trip. The 6 stainless steel blades easily handle smoothies, shakes, mousses, or sauces, ensuring their perfect consistency. The 470 ml container allows you to prepare a full meal, and the 180 W power ensures quick and effective blending even of harder ingredients. With a lock to prevent accidental activation, the device is fully safe, and the convenient handle and compact dimensions make it easy to transport. The TO GO blender is also equipped with a practical LED display and a universal USB-C/USB-A connector, allowing you to charge it anywhere. A portion of health is always at hand – just push the button!
