HUS1026

The wireless blender TO GO 315 W is an efficient and portable device that allows you to enjoy a healthy, fresh meal wherever you are – at work, in college, at the gym, or on the go. The large container with a capacity of 580 ml allows you to prepare cocktails, mousses, smoothies, sauces, and even pancake batter. The 6 stainless steel blades arranged in a cross pattern provide a perfectly smooth consistency for your drinks, regardless of the ingredients. With a powerful 315 W motor, the blender can handle fruits, vegetables, and protein additives in just a few seconds. The built-in lithium-ion battery lasts for preparing up to 20 meals on a single charge, and charging via the USB-C/USB-A connector allows you to use a laptop, power bank, or car outlet. The device features an accidental start lock, a clear Multi LED display, and an ergonomic handle for easy transport. It is the perfect solution for active individuals who want to take care of healthy eating – quickly, conveniently, and without compromises.
