Forever Light LED flashlight MULTI 1500mAh 350lm IPX45 FLF-05 is a unique flashlight of high-quality craftsmanship, featuring a power bank function and boasting an IPX45 protection rating, ensuring reliability even in challenging conditions. Its versatile applications make it an ideal companion for camping, emergency situations, and evening stays in summer houses, tents, and many other scenarios. This multifunctional flashlight provides several operating modes tailored to various needs. In total, it offers six different usage modes: *Flashlight Mode: Allows using the device as a traditional flashlight, comfortably held by the handle. *2 Flashlight Modes: The option to place the flashlight on a table or hang it by the handle in a tent, when dispersed illumination is needed. *Dim Torch Mode: This mode enables extended flashlight operation with pleasant ambient lighting. *Bright Torch Mode: Useful for cooking or reading, providing strong light for precise tasks. *Desk Lamp Mode: The flashlight's component can be unlocked by pressing a button, transforming the device into a desk lamp. Excellent for tasks requiring focus. *Directional Lighting Mode: Utilizes both flashlight modes and the flashlight mode to create directional lighting, adjustable in any direction. With two 360° rotating joints, this is a highly flexible solution. The FLF-05 MULTI is a flashlight that caters to diverse lighting needs, both in everyday situations and more demanding conditions. Its robust construction, power bank features, and IPX45 protection level make it an indispensable tool for outdoor adventures as well as domestic use.
