AK-TB-15

Akyga® AK-TB-15 is a universal power supply equipped with a USB micro B connector, commonly used in devices such as smartphones, tablets or power banks. The product is perfect for charging these devices with a maximum power of 15 W. Additionally, the applied protections ensure protection of the power supply, among others, against overheating or short-circuit damage. The charger cable is 1 m long. The product is available in black, packed in an environmentally friendly EcoBox packaging. The power supply can be used, among other things, to charge the Airwheel C5 helmet.
