BCC15

Introducing the XO-BCC15 Bluetooth audio transmitter, the best solution for wireless audio streaming in your car or any AUX-compatible device. With Bluetooth technology in version 5.3 and a powerful main chip, you can enjoy seamless connectivity and high-quality audio transmission. With its sleek appearance and compact size, it easily fits into any setup. With a 120 mAh battery, you can enjoy up to 6 hours of playback. Effortlessly connect to your car stereo or any device that supports AUX and enjoy hands-free calls and music streaming. Compatible with playback formats MP3 and WAV and supporting Bluetooth protocols such as A2DP, AVRCP, HSP, and HFP, it offers versatile and efficient performance. The ABS construction ensures durability, while the silver color adds elegance to your setup.
